Branislav Todorovic, Technical Director of that airline, brought out the fact that Mr. Aniclovic, the former Managing Director of JAT, was relieved in August 1954. The new Managing Director is Mr. M. Chubrich. Chubrich is not an airlines' operations man but, he has an excellent reputation in Yugoslavia in organizational management and financial fields. Chubrich also is known to have access to top members of Tito's government who can be of great assistance in obtaining the type of help that JAT needs at the present time, i.e., financial assistance, efficiency studies and manufacturing facilities.
